USGS Surface-Water Monthly Statistics for Georgia

Times for Georgia stations are shown as Eastern Standard Time. If your clock is set to Eastern Daylight Savings Time, add one hour to the time shown on the Web page to compare to your clock time.

Additional information may be found on the [USGS Water Resources of Georgia](#) page, including [low-flow statistics](#) and [flood-frequency information](#) for selected stations.

The USGS operates through cooperative funding agreements where a share of the cost for funding data collection at a station is paid by a cooperating agency and the remainder of the cost is paid by the USGS. The following stations are slated to be discontinued as of December 31, 2006, due to the unavailability of a cooperating agency to assist with the ongoing operation and maintenance costs:
