

### *Meeting Minutes 13*

---

Date: 11/9/11

GE Meeting start 3:05pm

- Status update on project
- We explained the transducer method for calculation flow rate
- We discussed oversampling
- Recommended sampling at low frequency and increasing sampling rate
- Discussed how to relate pressure and velocity
- Discussed clamping mechanisms
- Decided to meet 3:00pm Friday to discuss presentation

End 3:30pm
