Evaluation Criteria

Teammate Name	A	B	C	D	SUM
Thomas Silva	3	3	3	3	12
Matthew McHugh	3	3	3	3	12
Travis Jarboe	3	3	3	3	12

In no more than four sentences: How did you perform based on the above criteria? Explain why.

Even though I was ill for the 4 days prior to the presentation, I still performed tests and improved the code before the presentation. On presentation day, I was feeling well enough to drive to school so I helped finalize the presentation up to the delivery time. I thought I did well for not having any practice and not feeling well but I do wish we could have presented on Thursday or the ppt. could have been finalized before the weekend.

(Optional) Additional comments about other team members (compliments or criticisms)

Due to the seemingly last minute additions of pictures of the finalized designs (since there have been several changes) not much time was allowed for practice but somehow Thomas has the great ability to present the slides well with ease.
